

ANNOUNCING THE 2022 JOYFUL NURSE AWARD WINNERS!

Greetings,

The 2022 Restoring Joy Award recognizes nurses who add JOY to the work environment. Nurses from a variety of organizations were nominated for this award. Through this process, we hope to promote a focus on Joy in the work environment. Research recognizes the benefits of Joy in the workplace and its link to patient safety and satisfaction.

Enjoyment is the spark that ignites passion and enthusiasm. Joy is about recognizing that you are not how you feel. Joy is a state of the heart, an attitude of the mind and a condition of the will. The 2022 Restoring Joy Award winners are intentional in their efforts to add JOY to the work environment. In spite of the whirlwind, these nurses manage to brighten their environment with the light of a joyful heart!

Award recipients will be featured on the Restoring Joy to Leadership website in the near future as well as other media avenues. Award recipients receive complimentary registration to the 2022 Restore Joy Now conference. They are recognized and celebrated during the Awards ceremony as a way to promote strength for their continued journey.
